Disclaimer

Bushwalking and mountain climbing are potentially hazardous activities. Mountainous terrain is subject to rapid changes in weather, and higher elevations can experience snow at any time of the year. The terrain may be unstable and subject to rock-falls and other hazards. The Queensland countryside is home to various species of snakes, some of which have poisonous venom that can be fatal, or lead to other serious consequences. Other animals such as some spiders and ants can bite with potentially serious consequences. Some spiders carry venom that can lead to death. Some people may suffer from conditions that cause those persons to enter shock from certain ants or wasp bites.

The SOTA Management Team, the Australia – Queensland Association and their officers shall not accept responsibility for any death, injury or liability in any form resulting from participation in SOTA activities within any state or territory within Australia or anywhere else in the world.

The inclusion of a summit in this Reference Manual does not indicate that it is safe, legal, or even possible to climb the summit. The Summit Reference data is not guaranteed to be accurate and no reliance shall be placed upon it.

Any participant shall check applicable local government, state and Commonwealth laws to be sure that a bushwalk or climb up any of the summits listed in this manual is legal. Some summits in this manual do reside on private property and the pursuit of SOTA activities shall respect private property rights. Some areas of Australia are public land, but are closed to public access, including “closed” water catchment areas and “reference areas” within parks managed by National Parks authorities. Significant criminal penalties can apply if participants enter these areas.

As a particular caution to European hikers, please note that “Every Man’s Right” does not exist in Australia; permission to cross private lands must be expressly granted and cannot be assumed.

It is up the individual to determine his/her personal assessment of fitness level, skill, training and experience to safely attempt bushwalking or climbing in Australia.

The Australia – Queensland Association is incorporated under SOTA rules, but it is merely an informal mechanism of advice to the international SOTA program. There is neither an Incorporated Association, nor an Unincorporated Association under any state or territory act in Australia that operates within Australia.

2.1. Program derivation

The Australia – Queensland (VK4) association is an extension of similar programs active in countries around the world. The list of summits is based on mapping data available from:

- Geoscience Australia and the Qld. Government. The list of summits for the included regions is believed to be comprehensive, but not necessarily exhaustive.
- Google Maps is used as a secondary source.

The summit reference list shall be updated on a regular basis. Your help to identify new summits is not only welcome but encouraged where you are aware of any summit not referenced in this manual that meets the association criteria. Please refer to **Section 2.9, Process to maintain summit reference list** below. In particular, the association seeks to extend the program to other states and territories throughout Australia, including the external territories.

2.2. General information

Regions within Queensland are based on the Bureau of Meteorology weather forecasting regions. Refer to www.bom.gov.au for maps outlining the areas of these regions.

The SOTA General Rules shall govern and take precedence over any rules found herein.

Full text of the SOTA General Rules can be found at: <http://www.sota.org.uk/docs/SOTA-General-Rules-1.20.pdf>

2.3. Final Ascent and Activation Zone

The Australia – Queensland (VK4) association defines the SOTA Activation Zone as an unbroken area within 25 vertical meters of the summit.

Note that some areas have government restrictions on what methods of ascent are permissible.

A Summit activated before a reference number is issued to it cannot be claimed for SOTA award points.

All regions within the Australia – Queensland (VK4) association have the same award scheme however this may change with respect of new regions that are added.

Should compliance of any these rules appear impossible because of the peculiar topography of the summit or for activator safety reasons, contact the Regional Manager.

Feel free to contact the Regional Manager for any clarification as to whether activation of a particular summit shall be valid for SOTA credit.

2.4. Rights of way and access issues

Neither SOTA nor the Australia – Queensland (VK4) Association have any knowledge concerning the land ownership or right of way issues of any summit or route to a summit.

It is up to each individual to ascertain the legal rights and obtain all necessary permission from the property owners of the route taken to reach a summit.

2.5. Maps and navigation

At minimum, take a compass and topographical map(s) of sufficient resolution. It is strongly recommended to carry topographical maps that use the GDA94 MGA grid as this manual provides grid references using this datum shown in the summit reference as Zone, Easting

Summits on the Air – ARM for Australia - Queensland (VK4)

and Northing.

A GPS device should be carried only as a secondary source of navigation information. The GPS should use the GDA94 or GDA datum, and if that is unavailable, the compatible WGS84 datum. If display units are set to UTM or MGA, then these will be compatible with the grid references given in this manual. Latitude and Longitude are expressed in Decimal-Degrees using the GDA94/WGS84 datum. All Latitudes are negative and all Longitudes are positive. This system has been chosen for its compatibility with Google Maps. You need only enter a summit's decimal coordinates into Google Maps to see a topographic, satellite or road map of a summit or to find driving directions to the closest roads. Note that for many remote summits, Google maps may give misleading or inappropriate navigational information, so please use this service with care.

Note that some older Australian maps use the AGD66 datum. Both latitude/ longitude references and MGA grid references will be in error by about 130 metres using this datum. Use of this datum is not recommended, particularly for off-track navigation or accessing remote summits.

The SOTAwatch website is an excellent repository of summit access information, and all activators are encouraged to submit any mapping, trail, access permission or other specific summit advice they can acquire. Please be sure to respect intellectual property law when adding information to the SOTA watch site.

More information on Queensland National Parks can be found at: <http://www.nprsr.qld.gov.au/>

Some areas of Australia are covered by APRS, but as of September 2013, coverage in many areas containing summits is limited or non-existent.

Topographical maps of Queensland may be obtained from:

The Queensland Government Department of Natural Resources and Mines website at
http://www.nrm.qld.gov.au/services_resources/, and

The Australian Government Geoscience Australia website at
<http://mapconnect.ga.gov.au/MapConnectThemes2/imf.jsp?site=250K>

Maps Australia wide can be obtained from <http://maps.google.com> using the terrain feature. The Google Maps data tends to be of lower quality than maps from official sources.

Maps can also be found at some retail book and outdoor adventure stores.

2.6. Safety considerations

Check the weather before going. Weather in mountainous areas can change rapidly and unexpectedly so be prepared for any of the following conditions: freezing temperatures, snow, rain, strong winds and sun. These conditions are even more variable and intense over 1,200 meters above sea level. Remember temperatures will fall by as much as 3 degrees C per 300 metres. In most places in Queensland, temperatures can be extremely hot in summer and water availability can be limited or non-existent. In some instances marked water courses will rarely contain water or may only contain water on a seasonal basis. Not all water from streams and other non-treated sources can be considered safe to drink.

Tell someone where you are going. Prior to your trip, advise a responsible person of your intended destination and your estimated time of return. Any rescue attempt or medical assistance will be greatly delayed if no-one knows that you are missing.

Lightning is always a danger. Know the early signs of weather associated with lightning. Upon the first sign of visible thunderstorms, lightning, or thunder, reduce your exposure immediately by descending below the tree line. Proximity to an antenna puts you at greater risk. Do not seek shelter under trees or rock outcrops. Some mountain areas in Queensland are known for attracting lightning.

Bushwalking is an inherently risky endeavour. The consequences of the lack of preparation can be tragic. While the risks you assume by participating in SOTA activities can never be dismissed, they can be greatly diminished through knowledge, preparation and experience. Each person shall judge for themselves whether an objective is achievable. The listing of a summit in the reference list does not imply that it is easy to reach the summit. Assess your skill and fitness levels realistically and travel well within your limitations. Remember, once you make the summit, you are only half the way home. Often the down climb is where most accidents occur due to fatigue and lack of focus.

Vehicle condition must be appropriate for the roads you intend to travel. You can expect many of the access roads to be no better than steep gravel forestry roads. Many roads in remote areas are 4WD access only, and may be subject to seasonal closures. Heavy penalties apply for travelling on roads during seasonal closures.

Carry the Ten Essentials. The “Ten Essentials” is a list of essential items bushwalking authorities deem necessary for safe travel in the bush.

1. Map(s)
2. Compass (optionally supplemented with a GPS receiver)
3. Sunglasses and sunscreen
4. Extra food and water
5. Extra clothes

Summits on the Air – ARM for Australia - Queensland (VK4)

6. Headlamp (outdoor)/flashlight
7. First aid kit
8. Fire starter
9. Matches
10. Knife

Note that many parks in Australia are subject to limitations or permanent bans on non-emergency use of fires. All areas of Australia are subject to declarations of Total Fire Bans.

Beware of wildlife. Snakes call Australia home. They can kill or severely injure you. Understand their range and behaviour so you can take necessary precautions.

Physical Fitness is required. Some of the summits listed in this manual require a significant degree of physical exertion to reach the summit. Some summit access is only off track. Off track walking in some areas of Queensland may be covered in thick undergrowth that can restrict speed to as little as 100 metres per hour. Know your limitations, listen to your body and put your health before amateur radio. Check your pulse under heavy exertion and remember to slow down, bring plenty of water and enjoy the activation. Medical evacuation from many of the listed summits is slow and difficult. A heart attack in remote areas is likely to result in death as medical services require some time to respond.

Proper Clothing is necessary. You should never venture into major mountains areas without walking boots, layered clothing to match the conditions and protection against possible rain or snow.

Mobile phone coverage in Australia is poor in areas away from major roads and towns. Telstra, Optus and Vodafone are the major mobile phone networks in Australia. Their coverage maps can be found at:

Telstra: www.telstra.com.au/mobile/networks/coverage/

Optus: <http://www.optus.com.au/aboutoptus/About+Optus/Network+Coverage/Optus+Network+Coverage+Maps>

Vodafone: <http://www.vodafone.com.au/personal/services/coverage/maps/index.htm>

Mobile phones that support 3G in both the 850 and 900 bands will have greater coverage, especially in an emergency. Note that dialling 112 may work where dialling 000 does not.

Proper track etiquette is expected. Keep to the walking tracks where they can give access to the summit. Off-track walking requires significantly greater navigational skill, but is required for access to some summits.

Summits on the Air – ARM for Australia - Queensland (VK4)

Respect other bushwalkers and the environment and take out what you bring in.

Bushfires are an increasing threat with global warming and drought. Fire bans are strictly enforced with heavy fines for noncompliance. Check with the Queensland Government's Rural Fire Services website at: http://www.ruralfire.qld.gov.au/fire_bans_restrictions.html regarding any fire bans. It is your responsibility to be aware of any fire ban that has been declared.

2.6.1. Becoming lost

If you become lost and unable to recover to a known position, then you should call 000 or 112 and ask for Police. If unable to make phone calls to either of these numbers, then attempt to reach higher ground where mobile phone coverage may be found. If you are in very remote areas, then coverage may not exist even at higher ground.

If you are unable to contact Police, then you should remain near your current position, if safe to do so. Fires attract attention and smoke can be seen from the air. Construct the best possible shelter from the materials that may be available to you and preserve food. If forced to descend into gullies and valleys to obtain water, again remain in a position near the water source, and do not attempt to continue down the valley. Terrain in valleys can be impassable and is often more hazardous than ridges, which you would have likely been using to access the summit before coming lost. It is also easier to locate a "static" alert missing person than a "dynamic" missing person who is still moving around.

A call on the local amateur repeaters may also provide assistance if required.

2.7. Foreign Amateur Radio Operators in Australia

Please refer to: http://www.acma.gov.au/WEB/STANDARD/pc=PC_1311

2.8. Association Awards

There are no Australia – Queensland (VK4) Association specific awards.

2.9. Process to maintain summit reference list

The summit list is maintained by each regional manager. Additional summits that have been identified shall be added on a periodic basis.

A new summit may be requested to be included in the list by contacting the regional manager.

Following a review and verification, including approval by the SOTA Management Team, to whether the summit meets both the General and Regional criteria the summit shall be added to the list.

Summits on the Air – ARM for Australia - Queensland (VK4)

All potential new summits must meet the guidelines found under the SOTA General Rules <http://www.sota.org.uk/docs/SOTA-General-Rules-1.20.pdf> and have a prominence equal to or higher than 150 meters.

3. Summits Reference

3.1. *Queensland – Southeast Coast Region – SE*

| | |
|----------------|--------------------------------------|
| Association | Australia Queensland (VK4) |
| Region | Southeast Coast (SE-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.1.1. Regional Notes

The Southeast Coast region covers the area north of the NSW border surrounding Brisbane, the capital city in Queensland, the Gold Coast, and the Sunshine Coast. The region extends west to the Great Dividing Range and includes the areas surrounding Ipswich.

3.1.2. Table of Summits

| Summit Ref. | Summit Name | Altitude (mt) | Altitude (ft) | Latitude | Longitude | Valid from | Valid to | Points |
|-------------|---------------------|---------------|---------------|-----------|-----------|------------|----------|--------|
| VK4/SE-001 | Mt Barney | 1325 | 4347 | 152.69697 | -28.28015 | 01/09/2013 | | 10 |

3.2. Queensland – Darling Downs & Granite Belt Region – SD

| | |
|----------------|---------------------------------------|
| Association | Australia Queensland (VK4) |
| Region | Darling Downs & Granite Belt (SD-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.2.1. Regional Notes

The Darling Downs & Granite Belt region covers an area with mountainous terrain of the Great Dividing Range opening out to farmland with rural townships to the west. It includes the rural cities of Warwick, Toowoomba and Dalby.

3.2.2. Table of Summits

3.4. Queensland – Capricornia Region – CA

| | |
|----------------|--------------------------------------|
| Association | Australia Queensland (VK4) |
| Region | Capricornia (CA-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.4.1. Regional Notes

The Capricornia Region continues to follow the Great Dividing Range north to the Tropic of Capricorn. It includes the cities of Gladstone, Rockhampton and Yeppoon and also incorporates some qualifying summits within the prohibited military training area of Shoalwater Bay.

3.4.2. Table of Summits

| Summit Ref. | Summit Name | Altitude (mt) | Altitude (ft) | Latitude | Longitude | Valid from | Valid to | Points |

3.5. Queensland – Central Coast & Whitsunday Region – CW

| | |
|----------------|--------------------------------------|
| Association | Australia Queensland (VK4) |
| Region | Central Coast & Whitsunday (CW-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.5.1. Regional Notes

The Central Coast and Whitsundays region covers the coastal area from St Lawrence to Bowen including the city of Mackay. Many of the islands of the Whitsunday Group with qualifying SOTA peaks are included in this region. Most islands are also National Parks. The region offers many qualifying SOTA peaks.

3.5.2. Table of Summits

3.6. Queensland – Herbert & Lower Burdekin Region – NH

| | |
|----------------|--------------------------------------|
| Association | Australia Queensland (VK4) |
| Region | Herbert & Lower Burdekin (NH-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.6.1. Regional Notes

This region covers the northern Queensland coastal strip from Bowen to Ingham, extending west to the Great Dividing Range. It includes the North Queensland city of Townsville, a restricted access military training area, and some islands with qualifying SOTA summits.

3.6.2. Table of Summits

| Summit Ref. | Summit Name | Altitude (mt) | Altitude (ft) | Latitude | Longitude | Valid from | Valid to | Points |

3.7. Queensland – North Tropical Coast & Tablelands Region – NT

| | |
|----------------|--|
| Association | Australia Queensland (VK4) |
| Region | North Tropical Coast & Tablelands (NT-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.7.1. Regional Notes

This region covers the North Queensland coastal strip from Cardwell to Cooktown, including the city of Cairns and Hinchinbrook Island, and extending west to the Atherton Tablelands. The terrain west of the coast is rugged and remote with the vegetation mostly consisting of dense rainforest.

3.7.2. Table of Summits

3.8. Queensland – Peninsular Region – NP

| | |
|----------------|--------------------------------------|
| Association | Australia Queensland (VK4) |
| Region | Peninsular (NP-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.8.1. Regional Notes

This region covers the area from Cooktown, to the northern tip of Cape York including several islands in the Torres Straight, and west to the Gulf of Carpentaria. The area is very remote and can be inaccessible during the wet season.

3.8.2. Table of Summits

3.9. Queensland – Gulf Country Region – NG

| | |
|----------------|--------------------------------------|
| Association | Australia Queensland (VK4) |
| Region | Gulf Country (NG-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.9.1. Regional Notes

Known as the Gulf Country, this region is located along the Gulf of Carpentaria coast. The region's terrain is mostly arid or savannah country prone to heavy flooding in the wet season. There are very few features of significance for SOTA in this region.

3.9.2. Table of Summits

| Summit Ref. | Summit Name | Altitude (mt) | Altitude (ft) | Latitude | Longitude | Valid from | Valid to | Points |
|-------------|-------------|---------------|---------------|-----------|-----------|------------|----------|--------|
| VK4/NG-001 | A467 | 272 | 892 | 138.33045 | -17.54003 | 1/09/2014 | | 1 |

3.10. Queensland – Northern Goldfields & Upper Flinders Region – NF

| | |
|----------------|---|
| Association | Australia Queensland (VK4) |
| Region | Northern Goldfields & Upper Flinders (NF-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.10.1. Regional Notes

This region covers the area from Charters Towers in the south to the western town of Richmond and north to Georgetown.

3.10.2. Table of Summits

3.11. Queensland – Central Highlands & Coalfields Region – CH

| | |
|----------------|---|
| Association | Australia Queensland (VK4) |
| Region | Central Highlands & Coalfields (CH-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.11.1. Regional Notes

The Central Highlands and Coalfields region is situated inland from the coast and straddles the Great Dividing Range. There are many features of interest for SOTA activities in this region however some areas are quite rugged and remote.

3.11.2. Table of Summits

| Summit Ref. | Summit Name | Altitude (mt) | Altitude (ft) | Latitude | Longitude | Valid from | Valid to | Points |

3.12. Queensland – Central West Region – WC

| | |
|----------------|--------------------------------------|
| Association | Australia Queensland (VK4) |
| Region | Central West (WC-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.12.1. Regional Notes

The Central West region is situated on the Western side of the Great Dividing Range in the centre of Queensland and consists of vast floodplain areas and also includes the outback towns of Longreach, Winton and Barcaldine. There are few qualifying summits in this outback region.

3.12.2. Table of Summits

| Summit Ref. | Summit Name | Altitude (mt) | Altitude (ft) | Latitude | Longitude | Valid from | Valid to | Points |
|-------------|-----------------|---------------|---------------|-----------|-----------|------------|----------|--------|
| VK4/WC-001 | Darkies Range | 504 | 1654 | 146.09083 | -21.73060 | 01/09/2014 | | 2 |

| VK4/WC-004 | Mt Brooks | 379 | 1243 | 144.07771 | -24.80335 | 01/09/2014 | | 1 |

3.13. Queensland – Maranoa and Warrego Region – WM

| | |
|----------------|--------------------------------------|
| Association | Australia Queensland (VK4) |
| Region | Maranoa and Warrego (WM-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.13.1. Regional Notes

The Maranoa and Warrego region is situated in the southern part of Qld to the west of the Darling Downs on the border of NSW. The area consists of farming, grazing country in the east becoming more arid to the west and includes the inland rural towns of Roma, Charleville and Cunnamulla. There are only a few qualifying SOTA summits in this vast region.

3.13.2. Table of Summits

| Summit Ref. | Summit Name | Altitude (mt) | Altitude (ft) | Latitude | Longitude | Valid from | Valid to | Points |
|-------------|-----------------|---------------|---------------|-----------|-----------|------------|----------|--------|
| VK4/WM-001 | Mt Hutton | 940 | 3084 | 148.36383 | -25.86245 | 01/09/2014 | | 8 |
| VK4/WM-002 | VK4/WM-002 | 890 | 2920 | 148.28949 | -25.74316 | 01/09/2014 | | 6 |
| VK4/WM-003 | VK4/WM-003 | 865 | 2838 | 148.29670 | -25.91460 | 01/09/2014 | | 6 |

| VK4/WM-006 | Grafton Range 2 | 642 | 2106 | 148.96958 | -26.35165 | 01/09/2014 | | 4 |
| VK4/WM-007 | Grafton Range 3 | 630 | 2067 | 149.00225 | -26.30777 | 01/09/2014 | | 4 |

3.14. Queensland – Northwest Region – WN

| | |
|----------------|--------------------------------------|
| Association | Australia Queensland (VK4) |
| Region | Northwest Region (WN-xxx) |
| Region Manager | Dave Clodd VK4DD VK4DD@wia.org.au |

3.14.1. Regional Notes

The North West region consists of dry arid areas around the inland mining city of Mt Isa and borders the Northern Territory. There are but a few features of significance for SOTA activities in this region. Much of this area is very remote.

3.14.2. Table of Summits

| Summit Ref. | Summit Name | Altitude (mt) | Altitude (ft) | Latitude | Longitude | Valid from | Valid to | Points |
|-------------|--------------------|---------------|---------------|-----------|-----------|------------|----------|--------|
| VK4/WN-001 | Mary Kathleen Mine | 625 | 2051 | 140.02415 | -20.74669 | 01/09/2014 | | 4 |
| VK4/WN-002 | VK4/WN-002 | 618 | 2028 | 139.77667 | -21.09635 | 01/09/2014 | | 4 |
